REMARKS

Claims 1-28 were pending in the present application. By virtue of this response, claims 1 and 18 have been amended and claims 29-31 have been added. Support for the amendment to claim 1, which now recites a replication competent adenovirus vector comprising an adenovirus gene essential for replication, can be found at least at page 6, lines 1-9 and page 9, lines 18-22. The amendment to claim 18 is to correct an informality as suggested by the Examiner. Support
